& 62-66).

**DETAILED ACTION** 

Election/Restriction

1. Applicant's election of Group IIb (claims 11, 31, 32, 34, 36-43, 62, 64 and 66, as Applicants' correctly point out) with traverse in Paper No. 9/16/03 is acknowledged. The traversal is on the ground(s) that "at the very least, the restriction is improper because... there is no serious burden to examine the claims of Group IIa along with the claims of Group IIb". In that Applicants are correct that SEQ ID NO:1 is at least 98% identical to SEQ ID NO:3, in which both sequences are human variant sequences whose differences are specifically described within the specification, and which can therefore both be searched using only SEQ ID NO:3, Applicants' arguments are persuasive for rejoining Groups IIb with Group IIa. Thus, the elected invention includes antibodies directed toward SEQ ID NOs: 1 & 3 (claims 11, 31, 32, 34, 36-43)

Claims 11, 31, 32, 34, 36-43 & 62 (as it relates to SEQ ID NO: 5) are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected inventions, the requirement having been traversed in Paper No. 9/16/03.

## Allowable Subject Matter

2. Claims 62-64 are allowed, once the nonelected invention of SEQ ID NO:5 is deleted from claim 62.

## Claim Rejections - 35 U.S.C. § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

Application/Control Number: 10/084,018

Art Unit: 1647

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11, 31, 32, 34, 36-43 & 65-66 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification on pages 3, 5 & 11 provides a written description of the human serine carboxypeptidase polypeptides of SEQ ID NOs: 1 & 3. No other "naturally occurring" serine carboxypeptidase sequences are described within the instant specification, except for the human polypeptide sequence of SEQ ID NO: 5. In contrast, the specification states that the "CPEPT... refers to the amino acid sequences of substantially purified CPEPT obtained from *any species*, particularly mammalian, including bovine, ovine, porcine, murine, equine, and preferably human". Therefore, one skilled in the art cannot reasonably visualize or predict what critical amino acid residues would structurally characterize the genus of "serine carboxypeptidase variants" claimed with various recited % identities, because it is unknown and not described what structurally constitutes these other amino acid sequences from any different species, or what sequences merely "comprise" at least 15 contiguous amino acid residues of SEQ ID NO:1 or 3 thereof that are immunogenic, which are further not described within the specification.

Applicant is directed toward the Revised Interim Utility and Written Description Guidelines, Federal Register, Vol.64, No.244, pages 71427-71440, Tuesday December 21, 1999, and MPEP 2163.

Art Unit: 1647

It is suggested that amending claims 11b, 65b & 66b to recite a "human" polypeptide, and amending claims 11d to "an immunogenic fragment consisting of [comprising] at least..." should obviate this rejection.

4. Claims 42 & 43 are rejected under 35 U.S.C. § 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps.

See MPEP § 2172.01. The omitted steps are: how the antibody is produced through "screening" a library.

## Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Robert Hayes whose telephone number is (703) 305-3132. The examiner can normally be reached on Monday through Thursday, and alternate Fridays from 8:30 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Kunz, can be reached on (703) 308-4623. The fax phone number for this Group is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0196.
